DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 24-31, drawn to wood component.

Group II, claim(s) 4-18, drawn to method of making wood component.

Group III, claim(s) 43-46, drawn to plurality of components.

2. The inventions listed as Groups I do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same corresponding special technical features for the following reasons: Claim 1 is either obvious over or anticipated by JP 09155814. Accordingly, the special technical feature linking the three inventions, a wood melt free from pyrolytic degradation, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.
3. A telephone call was made to Bruce Hamburg on June 06, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.
